The QuadPara Association of KZN is an autonomous Non-Profit Organisation and a Public Benefit Organisation that has been developing since 1993, and is responsible for all its own development, project, and administrative funding. Our aim is to deliver life changing services to persons with severe mobility impairments in KwaZulu-Natal, by delivering projects that our donor / CSI partners can be proud of.

As a CSI partner, the Association can offer the following:-

- Meaningful project delivery
- Sound management structures
- Financial responsibility
- Accountability
- Entrenched code of ethics
- Neutral evaluations
- Unlimited development opportunities
- Comprehensive reporting
- 18A Certificates

Quadriplegics are one of the most vulnerable groups within the disability sector. Those who are discharged to rural communities without any support or guidance structures have little chance of surviving the first year – the only dreams available are often nightmares of pain, isolation, poverty, abuse, and death. The Associations' outreach, Rural Development, and Rural Capacity Building Programs offer a hand of hope and independence to those who so desperately need it. We cannot do it, however, without serious funding partnerships.

This document is developed to offer an easily referenced insight into the Association, from humble beginnings to a promising range of meaningful projects, budget forecasts, and relevant administrative documents that will assist you with your decision on your CSI focus.

If we all do a little, much can be achieved
